**CrazyMLC:** why do you say that.

you're not even looking at it

The image was sent at this point. MLC has since withdrawn the offer, so I no longer have the file. Essentially, it's a texture pack, but instead of textures, the blocks are transparent and only the corners are colored to represent the block. Chests and such are left normal, so they stand out amongst the transparency.

**Alphagamer774:** you just lied about stealing all my shit

**Alphagamer774:** obvoiulsy you're not gonna tell me you have a wireframe mod

**CrazyMLC:** that's not wireframe. :|

it's why everyone who I actually lie to hates my guts

**Alphagamer774:** so you're just a lying little prick
